Aqua-Rite

STOP using single use plastics and switch to a recyclable solution for your **OUTDOOR** signage needs.

THE TIME IS NOW.

There is a global consensus that the world needs to go green now. And because of this, we are revolutionizing the signage industry with eco-conscious and high-quality print substrates.

Aqua-Rite is the first fully recyclable corrugated paperboard engineered specifically for **outdoor** signage that is exposed to harsh environmental cycles.

APPLICATIONS

- Large and small format outdoor signage
- Outdoor real estate and political signs
- Drive thru signage
- Outdoor sporting event signs
- Gas station, convenience and retail store baluster covers

FEATURES

- H-stake approved
- Approved for all digital and screen printing
- Printable two sides
- Triple white corrugated sheets
- Superior printing with premium digital facers
- Excellent color gamut
- Available in E, B, C Flute
- Guaranteed flatness

BENEFITS

- A sustainable Coroplast replacement
- Superior weather resistance (90 day approved)
- Outstanding printability, rigidity & durability
- 100% BLUE-BIN recyclable
- Made with FSC and SFI certified materials
- Ink cost savings vs. printing on plastics
